

- Additional Policies -

Media/AI Use, Multi-Class Discounts, & Scholarships

General Media Use Policy

Total Arts! often takes photos and videos during our programs for use on our website, in marketing materials, and on social media platforms.

-We do not post identifying information along with a photo or video unless we have received direct consent from the person depicted, or their guardian.

When setting up your Total Arts! account, you will be prompted to respond yes or no to media use.

-You may change your mind at any time

Total Arts! may occasionally provide a private link to a set of photos from large group events or programs.

-These links and photos are not for public use or distribution.

Use and management of AI:

-With the rapid progression of AI reach and the resulting privacy concerns we are shifting to a policy which will limit the use of faces in our public photos, reels, vidoes, etc. *(initiated Sept. 21, 2026)*

-This shift will begin with any new social media posts eventually including the reworking of our website.

-We do not upload photos into generative AI platforms or use AI tools to create our materials

Multi-Class/Sibling Discount

The discount is primarily for our weekly sessions and will be applied automatically per family which means it serves as a sibling discount and/or as a multi-class discount for a single student who takes more than one class.

Discount exclusions include:

-Community events, school vacation and summer programs, pop-up and drop-in days, programs that are already discounted, and workshops run off-site, depending on the policy of the location.

Scholarship Fund

Total Arts! has a small scholarship fund that can be used towards the cost of classes, programs, and events.

-The amount allocated will depend on factors such as the cost of the requested program, the amount of available funds, the determination of need, and any qualification stipulations from donors.

Funding of the Scholarships

-Families who have received credit in their account and are not able to use it can have their credit transferred to this fund

-Withdrawal credits that have not been used within one year of being issued will automatically be transferred to the scholarship fund.

Please contact us if you feel that a scholarship would be helpful or if you wish to contribute to the fund.
